

Caitlin Reardon

Education Program Manager

Zoo New England- Franklin Park Zoo

Hello! I am Caitlin Reardon and my role is the Education Program Manager at Zoo New England at our Franklin Park Zoo location. I started my career with the zoo at our other location, Stone Zoo in Stoneham MA, as the Afterschool Programs Assistant. I learned of my passion of working with both children and wildlife as a camp counselor at Broad Meadow Brook, Mass Audubon. This led me to the zoo as an educator and I have now worked here for 7 years!

Before entering the zoo world I spent several months working at the Cheetah Conservation Fund in Namibia. I worked closely with endangered cheetahs and livestock guarding dogs that work to protect them. This is where I learned the vital role that education plays in conservation and wanted to continue with that work. I hope to continue to encourage children and adults to care deeply about animals and their conservation.
